
■ COMPANY
OVERVIEW

COMPANY OVERVIEW

Siltec specialises in secure electronic equipment and power systems, in Defence, Civil Government and the commercial sector areas. The company has experts in the fields of secure computer systems, network integration, cryptography and power systems, providing a total solution to customer requirements. Siltec has been active in the market since 1982 and now have Partners in most NATO and European Union countries.

The company has become a leading manufacturer and supplier of TEMPEST equipment, with a wide range of computers and network devices. The company also offers power generating equipment, made at our new plant.

Apart from own manufacturing, Siltec also offers solutions in the fields of IT, communication (radio & satellite), optoelectronic and encryption, together with partnership with well known international companies.

It is the company's mission to provide clients with standards of excellence in development, manufacturing and customer services.

LOCATION

Siltec operates from Central Europe. Facilities are located in Warsaw and surrounding suburbs. Due to the central location, the company is able to provide fast response to service calls, systems support and deliveries to EU community, NATO and NATO nations.

EMPLOYEES

Siltec has over 100 direct employees. The Company employs highly qualified specialists in secure telecommunications, IT, cryptographic systems and projects requiring installation and service of

uninterruptible power systems including power generators and UPS products. Additionally, the company cooperate with over 50 qualified Polish and other nations engineers, in the

fields of complete power networks, power engineering, secure computer systems, wide - area and local - area networks, and secure telecommunications.

CERTIFICATES

Siltec is licensed and authorised for trading with the special military and dual-use equipment and technologies. The company has Level One Facility Secure Certificate as well as ISO 9001, AQAP 2110 and

IQNet Certificates. Siltec has assigned NATO Commercial and Government Entity Code NCAGE: 0318H, and Basic Ordering Agreement with NATO C3 AGENCY (ref. # NC3A/BOA/10353).

The company and employees are members of the Armed Forces Communications Electronics Association (AFCEA).

CUSTOMERS

Through over 25 years of our activity, systems and equipment have been delivered to many international and domestic customers, including: European Community,

NATO nations, major defence and intelligence organisations, security services, the Ministry of Foreign Affairs, the Ministry of the Internal Affairs, the Border Guard, Fire

Departments, Board of Customs, law enforcement agencies and other central and local governmental agencies, banks, telecommunication companies, fuel concerns etc.

SCOPE OF ACTIVITY

TEMPEST

- ▶ Computers and peripheral devices
- ▶ Monitors
- ▶ Notebooks, printers, scanners & faxes
- ▶ Servers
- ▶ Shielded cabinets

RUGGED

- ▶ Notebooks
- ▶ Monitors
- ▶ Portable terminals
- ▶ PDA's

ENCRYPTION SOLUTIONS

- ▶ IP systems and encryption equipment
- ▶ Vocoder encryption telephones
- ▶ Encrypted GSM/DECT telephones

COMMUNICATION EQUIPMENT AND SYSTEMS

- ▶ Radio and satellite communication equipment and systems
- ▶ Secure communication systems

OPTOELECTRONIC EQUIPMENT AND SYSTEMS

- ▶ equipment and system utilising thermovision, laser devices know-how for fire management, fixing and marking the position of a target
- ▶ optoelectronic equipment and systems

UNINTERRUPTIBLE POWER SUPPLY SYSTEMS

- ▶ Generating sets
- ▶ Uninterruptible Power Systems (UPS)
- ▶ Low voltage switch gears
- ▶ Monitoring systems

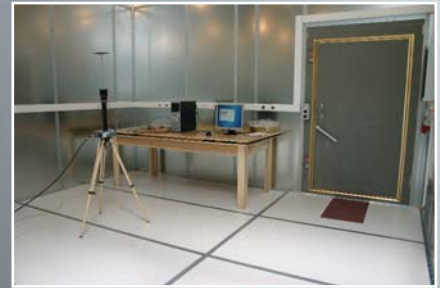

SERVICES

Laboratory

Siltec operates a certified Electro-magnetic Security Laboratory and is authorised by the Polish National Security Agency for TEMPEST

testing to NATO standards. Accredited laboratory provides product certification and also third party testing services.

Maintenance

Siltec Repair and Maintenance Department supports all equipment manufactured by Siltec. The company also offers third party
